# The Ocean Best Practices System and the Endorsement of Best Practices

**Johannes Karstensen,  
co-chair Ocean Best Practices System  
13. December 2021**

# What are Best Practices?

unesco

Intergovernmental  
Oceanographic  
Commission

Best practices are created by the community for the community

*Part 1:* A **best practice** is a methodology that has repeatedly produced superior results relative to other methodologies with the same objective

*Part 2:* To be **fully elevated to a best practice**, a promising method will have been reviewed, adopted and employed by multiple organizations

Best practices documents can be SOP, manuals, guides ... videos

# Best Practices foster Quality, Interoperability

**unesco**

Intergovernmental  
Oceanographic  
Commission

## Best Practices are a Foundation for ocean research and applications

Quality and consistency of observations and information

Efficiency (don't re-invent the wheel)

Transparency - Data traceability, reproducibility and uncertainty quantification

Resource for training and capacity development

# Challenges for Ocean Best Practices:

---

**unesco**

Intergovernmental  
Oceanographic  
Commission

- Not all best practices are documented
- They are scattered and can be hard to find
- Promising methods may not be shared
- Work to create a best practice is often not acknowledged

**A system is needed for Ocean Best Practices**

 **Ocean best  
practices**

# IOC Ocean Best Practices System

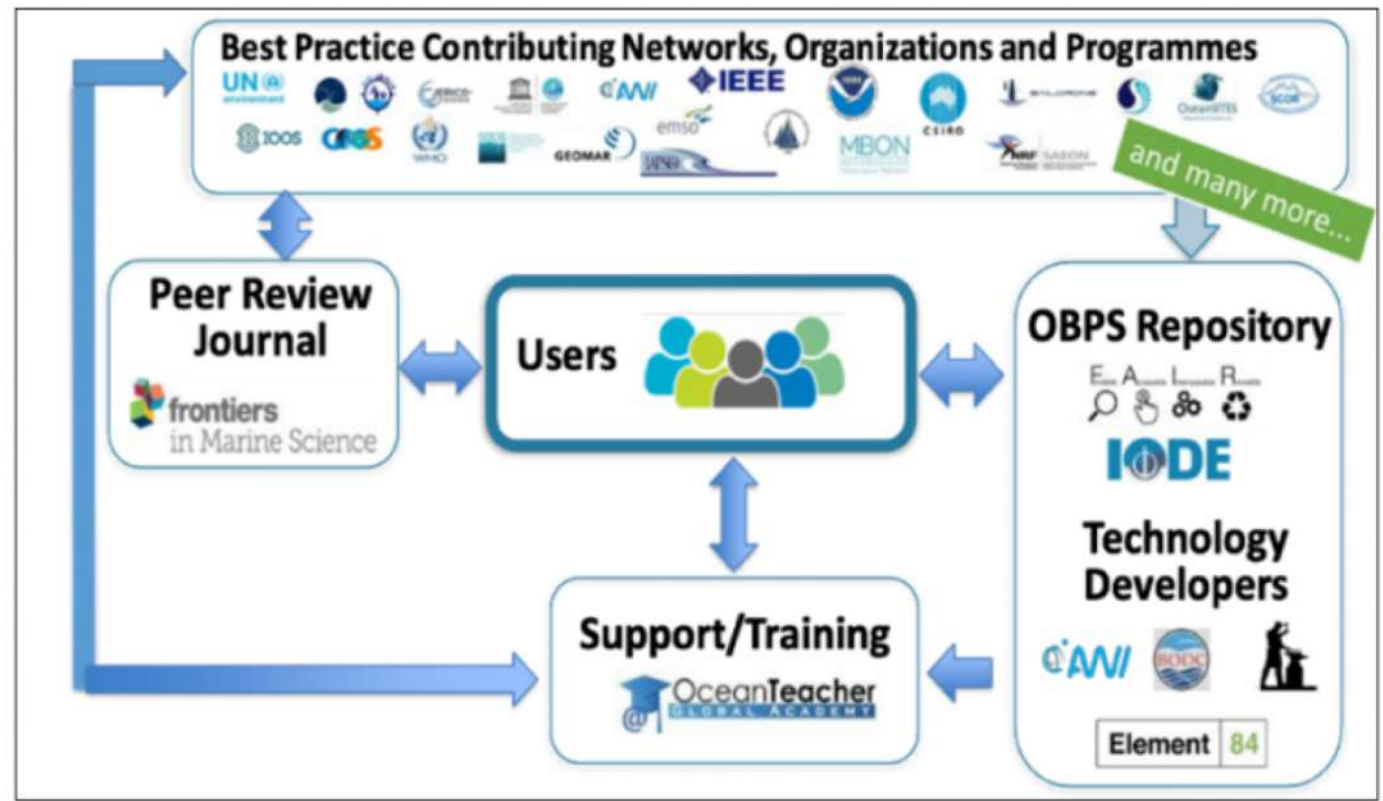

**unesco**

Intergovernmental  
Oceanographic  
Commission

- Broad Community Support & uptake
- >1400 Documents/media stored
- Multiple Languages accepted
- Highlight “Endorsed” Practices
- Help with “Convergence” of knowledge into a BP
- Link to peer review journal
- Open Access

# Convergence & Endorsement

**unesco**

Intergovernmental  
Oceanographic  
Commission

**Challenges: creation of Best Practices and finding a Practice that fits best my needs**

- **Convergence:** process where a community converge on existing knowledge to create a document describing the “Best Practice”
- **Endorsement:** process where communities approve documents as their recommendation for use  
– e.g. *GOOS Endorsed Ocean Best Practices*

 **ocean best practices**

The Global Ocean  
Observing System

**Endorsement**

**unesco**

Intergovernmental  
Oceanographic  
Commission

**To qualify as “GOOS endorsed” a best practice is expected to**

1. Completed a rigorous and documented community review process and approved by the leadership
2. Is fit for the purpose and fully satisfies the definition of a best practice
3. Has been endorsed through the relevant “GOOS body” (OOPC, IOCCP, GOOS BioEco)
4. Is available and identifiable within the OBPS repository
5. Is updated at relevant timeframes

# What happens after endorsement?

**unesco**

Intergovernmental  
Oceanographic  
Commission

- OBPS endorsement certificate and possibly acknowledgements in BP
- GOOS endorsed tag - metadata search
- Sent out in OBPS eNews article
- Newsflash on GOOS webpage and a page on BP endorsement with a link to search repository
- OCG endorsed BP highlighted in report card
- Triggered for automatic update check in 3-5 years

# OceanPractices for the Decade (“OceanPractices”)

**unesco**

Intergovernmental  
Oceanographic  
Commission

**Support all ocean stakeholders in securing, equitable sharing, and collectively advancing ocean best practices**

*Best practices improve interoperability, foster trust and facilitate training so broader global participation naturally evolves*

- Enable the development and continuous evolution of best practices for ocean research, operations and applications
- Sustain a trusted system for permanently archiving and accessing ocean methods
- Foster community-led capacity development in ocean best practices for equitable access to technology and information
- Facilitate a federated network of interoperable methodology management systems

Lead Organization for OceanPractices:  
**Ocean Best Practices System**

Partners: 45 organizations and networks

Points of Contact:

Johannes Karstensen - Co-chair

Jay Pearlman - Co-chair

Pauline Simpson - Programme Manager

Cora Hörstmann - ECOP lead

practices**

# The Evolution

---

- Improve Multilingualism
- Expanded Support for EOVs
- Federation search and access across BP repositories (ocean, Land, atmosphere, ...)
- Supporting the use of standards (ISO, RM) in conjunction with best practices
- Further globalization of ocean best practices: Support across the UN Ocean Decade under the Ocean Practices Programme

# Back up follow

# Steps to developing an ocean best practice

## SCOPE AND RECRUIT

### Confirm the need

- Consider best practices training
- Review similar methods
- Survey the community
- Develop scoping report

### Form a working group

- Identify leaders
- Invite contributors and institutions
- Be inclusive
- Set scope of method

## DEVELOP AND RELEASE

### Develop content

- Assess/integrate related methods
- Consult in working group
- Create strawman
- Complete final draft

### Review final draft

- Invite full community review
- Respond and revise
- Maintain adjudication record

### Release

- Publish at repository
- Notify stakeholders
- Promote to target audiences

## REVISE AND RATIFY

### Invite feedback

- Survey users
- Publish in journal
- Assess uptake via repository
- Consider new version

### Obtain community endorsement for an accepted best practice!

- Obtain GOOS endorsement
- Obtain institutional endorsement
- Include in permitting recommendations
- Maintain and update

## The ocean best practices system can provide

A searchable repository

A journal theme

Training

User support, outreach

## Benefits of using a best practice

- Collaborative opportunities
- Efficient use of time
- Improved systems interoperability
- Data comparability and collatability
- Greater trust in data
- Streamlined regulatory approval
- Higher funding success

The Ocean Best Practices System is supported by UNESCO Intergovernmental Oceanographic Commission, Global Ocean Observing System, and the International Oceanographic Data and Information Exchange.
