*Harald Spahn, International Consultant*

- **Exchange of experiences**
- **Sharing of good practices and**
- **Further work on open issues**

**regarding the SOP development for  
NTWCs, N/P/LDMOs, and Broadcast  
Media along the tsunami warning  
chains in the Makran region**

- **Sharing the latest status of the SOP development** along the tsunami warning chain in the participating countries
- **Sharing of good practices and examples**, especially for LDMO and Broadcast Media SOPs
- Discussing and continuing the work on **unresolved issues** related to LDMO and Broadcast Media SOP development by the country teams
- **Outlook on further activities** to be undertaken to consolidate the SOPs after the workshop and in order to prepare for the simulation exercise to be held in first quarter 2023
- **Preparations for the simulation exercise**

## Day 1

Regional Level

- Share progress made since the end of project Phase 1
- Joint learning by exchange on good practices
- Identify any persisting challenges in developing SOPs

## Day 2/3

National Level

- Continue the work on open issues, especially for LDMO and Broadcast Media SOPs in each participating country
- Agreements on further activities

## Day 4

Regional Level

- Report back on the outcomes of the national meetings, progress made and possible actions to be taken to further consolidate the SOPs
- Modalities and preparation for a simulation exercise in 2023

# Country presentation

1. Latest version of the national warning chain with the symbols representing the current state of SOP development
2. Example of a LDMO or Media SOP
3. Information on open issues to solve and the topics that will be addressed during the national workshop on Day #2 and #3

20 minutes per country
