

The Global Ocean Observing System

First GOOS National Focal Points (NFP) Forum

25 October 2023

Session : 2 Reflections on National observing system by NFPs

Argentine Ocean Observing System

Alvaro Scardilli – Servicio de Hidrografía Naval – asscardilli@hidro.gov.ar

ARGENTINA

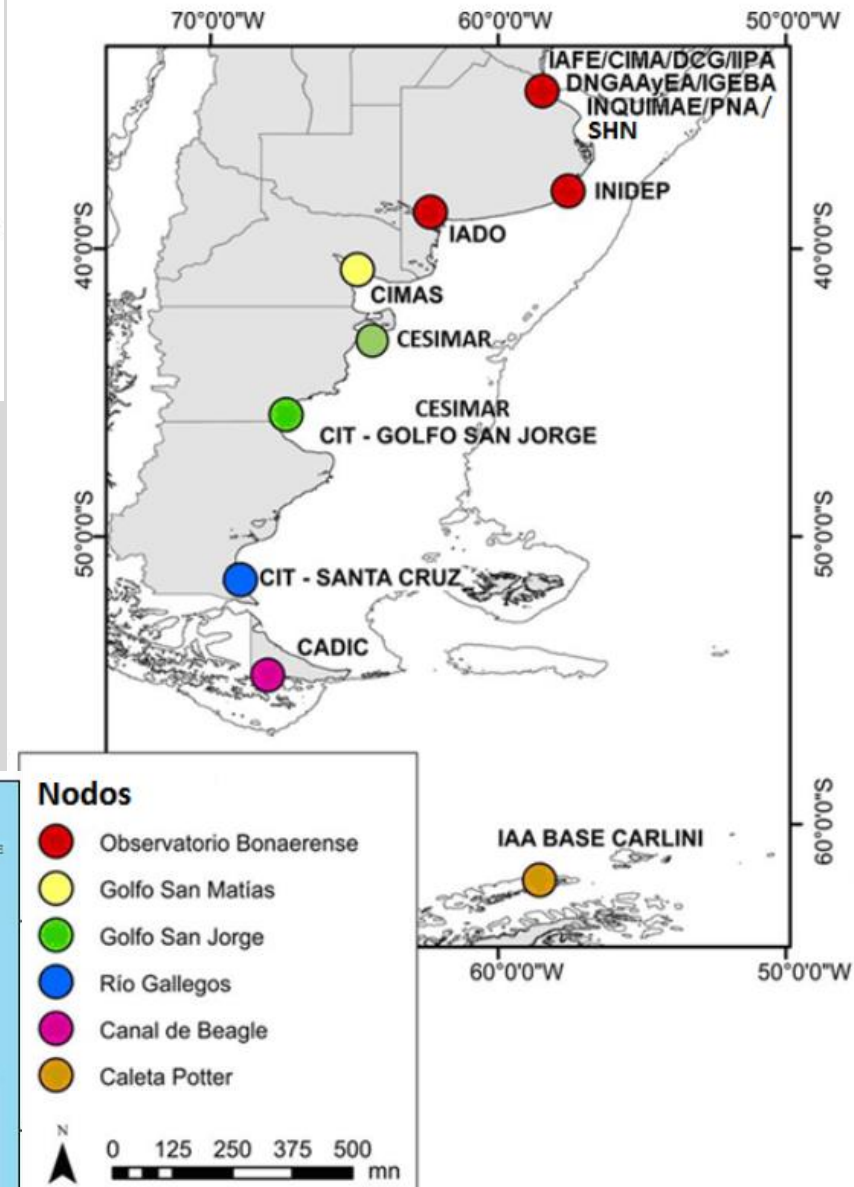

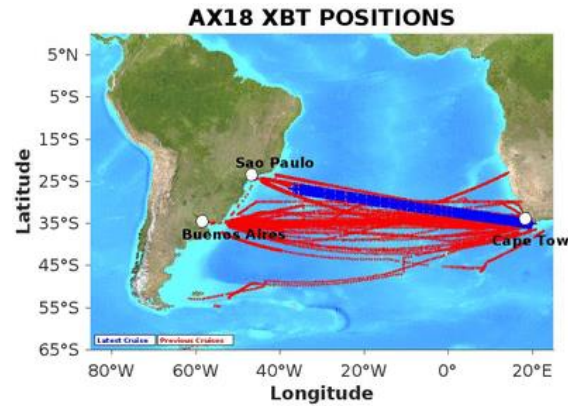

Current status of the National Ocean observing programme

- Pampa Azul
- Argentine Marine Observation Network (ROMA)
- XBT transect AX18
- Tide gauge Network
- Landers, buoys, ARGO floats

Future plans: consolidate programs and increase ocean observations

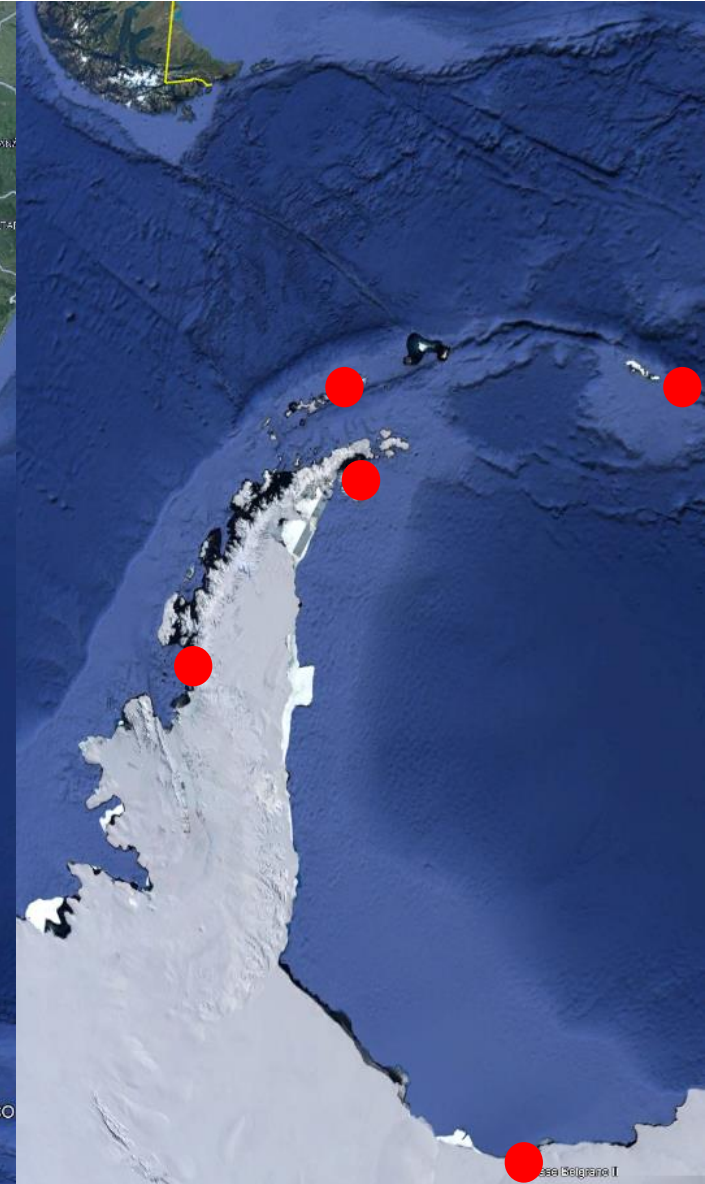

ARGENTINE OCEAN OBSERVING SYSTEM

Red ROMA.

Reflections on the role of NFP at the national level

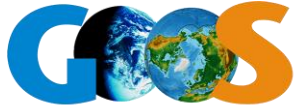

- ✓ National Universities, Organisms, Institutions related with Ocean Observations.
- ✓ Naval Hydrographic Service main producer of operational products and services.
- ✓ GOOS Regional Alliance: 
- ✓ Ocean Decade participation:
 - ✓ **Observing Together Program**
 - ✓ **South Atlantic Ocean Model (Action)**

Support needed from GOOS

- More visibility of GOOS in the Argentine Oceanographic Community to endorse actions of NFP.
- Call for projects or actions at regional or international scale.
- Capacity building.
- Access to technology and training.
- Increase joint work between NFP at regional level.

The Global Ocean Observing System

Thank you
