

Develop 2024-2029 IOTWMS Mid-Term Strategy

Risk Assessment and Reduction:

- Include non-seismic tsunami sources
- Emphasize local and community level
- Collate vulnerable and exposure data
- Leverage multi-Hazard
- Make assessment data public
- Improve evacuation mapping, hazard mapping, and inundation mapping

Develop 2024-2029 IOTWMS Mid-Term Strategy

Detection Warning and Dissemination:

- Emphasize 24/7 operation – infrastructure and resource
- Sustain and expand observation networks
- Embrace new technologies – detection and modelling
- Develop capabilities for non-seismic and complex sources
- Embrace new dissemination and communication technologies
- Implement Common Alerting Protocol
- Implement TSP navigational products

Develop 2024-2029 IOTWMS Mid-Term Strategy

Awareness and Response:

- Improve SOPs
- More Exercises
- Public Awareness and Community Engagement campaign
- Support vertical evacuation, signage, coastal management
- Policy and Planning
 - Aim for inclusive, all-level and cross-border coordination guided by TRA
- TRRP
 - Support national TRRP initiation and implementation
