“Two Decades After 2004 Indian Ocean Tsunami: Reflection and the Way Forward”

Monday 11th - Thursday 14th November 2024
in BANDA ACEH, INDONESIA

Press release >

In Banda Aceh, UNESCO calls for increased investment in tsunami preparedness

UNESCO gathered the world's leading tsunami experts and policymakers in Indonesia to mark twenty years since the deadly 2004 Indian Ocean Tsunami. While major progress has been made, the Organization called for increased efforts to achieve 100% of Tsunami Ready coastal communities worldwide by 2030. A dedicated roadmap was presented.

During the four-day UNESCO international conference, experts acknowledged that the world is "significantly better prepared today", thanks to actions implemented under the coordination of UNESCO and its partners in tsunami science, warning systems, and community preparedness.

"Together, we have succeeded in making the world safer and better prepared for tsunamis. We have set up early warning systems and more than thirty countries have already benefited from UNESCO's Tsunami Ready programme to train their populations. But there is still much work to be done. We call on all our Member States to continue their investments to ensure that coastal communities can respond swiftly and effectively when the threat arises."

Audrey Azoulay
UNESCO Director-General

The UNESCO Conference concluded with the adoption of the *Banda Aceh Statement*, a commitment by global experts and policymakers to improve the global tsunami warning and mitigation system for the next decade. This Statement calls on States and civil society to drastically

"Together, we have succeeded in making the world safer and better prepared for tsunamis. We have set up early warning systems and more than thirty countries have already benefited from UNESCO's Tsunami Ready programme to train their populations. But there is still much work to be done. We call on all our Member States to continue their investments to ensure that coastal communities can respond swiftly and effectively when the threat arises."
