1. The impact of the tsunami on the coast depends on:

Choose the correct answer(s)

- a. Source location.
- b. Direction / movement of the energy waves (propagation).
- c. Bathymetry of the coast.
- d. Topography.
- e. Type of the sand on the coast

1. The impact of the tsunami on the coast depends on:

Choose the correct answer(s)

- a. Source location.
- b. Direction / movement of the energy waves (propagation).
- c. Bathymetry of the coast.
- d. Topography.
- e. **Type of the sand on the coast**

2. Tsunami hazard maps depict areas that may be hit by a tsunami, usually based on the worst credible possible tsunami scenario.

- a. Correct
- b. Incorrect

2. Tsunami hazard maps depict areas that may be hit by a tsunami, usually based on the worst credible possible tsunami scenario.

- a. Correct
- b. **Incorrect**

3. Information and data about a community within the inundated area will be useful for:

Choose the correct answer(s)

- a. Developing a tsunami evacuation map.
- b. Developing a tsunami hazard map.
- c. Developing a tsunami evacuation plan.
- d. Determining tsunami evacuation places
- e. Developing education materials
- f. Tsunami Emergency Response plan
- g. Receiving tsunami early warning from NTWC, DMO, or other official parties

3. Information and data about a community within the inundated area will be useful for:

Choose the correct answer(s)

- a. Developing a tsunami evacuation map.
- b. **Developing a tsunami hazard map.**
- c. Developing a tsunami evacuation plan.
- d. Determining tsunami evacuation places
- e. Developing education materials
- f. Tsunami Emergency Response plan
- g. **Receiving tsunami early warning from NTWC, DMO, or other official parties**

4. Information about the people in the tsunami-affected area should be segregated by:

Choose the correct answer(s).

- a. Age.
- b. Gender.
- c. Ethnicity.
- d. Disabilities / people with special needs.
- e. Religion

4. Information about the people in the tsunami-affected area should be segregated by:

Choose the correct answer(s).

- a. Age.
- b. Gender.
- c. **Ethnicity.**
- d. Disabilities / people with special needs.
- e. **Religion**

5. When deciding on the population data in the tsunami hazard zone, you need to consider:

Choose the correct answer(s)

- a. Day and night population
- b. Commuting workers
- c. Domestic and international tourists
- d. Holidays (school, religious, etc.) _
- e. Seasonal periods (summer, winter, etc.)

5. When deciding on the population data in the tsunami hazard zone, you need to consider:

Choose the correct answer(s)

- a. Day and night population
- b. Commuting workers
- c. Domestic and international tourists
- d. Holidays (school, religious, etc.) _
- e. Seasonal periods (summer, winter, etc.)

6. An inventory of available resources in a community is important in Tsunami Ready for the following reasons:

Choose the correct answer(s)

- a. Can be the source for tsunami risk reduction.
- b. Can strengthen community resilience.
- c. Can reduce poverty and inequality
- d. Can serve as a reference for community capacity

6. An inventory of available resources in a community is important in Tsunami Ready for the following reasons:

Choose the correct answer(s)

- a. Can be the source for tsunami risk reduction.
- b. Can strengthen community resilience.
- c. **Can reduce poverty and inequality**
- d. Can serve as a reference for community capacity

7. The existence of a Disaster Resilient Community Group, School Community, Religious Associations, and Non-Governmental Organizations in the community can be considered as part of which capacity:
Choose the correct answer(s).

- a. Infrastructure
- b. Political
- c. Social
- d. Economy

7. The existence of a Disaster Resilient Community Group, School Community, Religious Associations, and Non-Governmental Organizations in the community can be considered as part of which capacity:

Choose the correct answer(s)

- a. **Infrastructure**
- b. **Political**
- c. **Social**
- d. **Economy**

8. The existence of private companies, banks, markets, supermarkets, industries, and tourism areas in the community can be considered as which type of resource indicator.

Choose the correct answer(s)

- a. Infrastructure
- b. Political
- c. Social
- d. Economy

8. The existence of private companies, banks, markets, supermarkets, industries, and tourism areas in the community can be considered as which type of resource indicator.

Choose the correct answer(s)

- a. **Infrastructure**
- b. **Political**
- c. Social
- d. Economy
