The purpose of an evacuation plan is to save people at risk before the tsunami arrives, therefore an evacuation plan must:

Choose the correct answer(s).

- a. Direct people to safety via the shortest and quickest route.
- b. Consider the time of arrival of the tsunami.
- c. Consider the number of people at risk.
- d. Consider the accessibility by car and motorcycle.
- e. Consider the number of refugees that can be accommodated in the evacuation area.
- f. Consider the appropriate type of evacuation (horizontal-away from the coast) and vertical evacuation (using buildings as vertical tsunami evacuation shelters).

The purpose of an evacuation plan is to save people at risk before the tsunami arrives, therefore an evacuation plan must:

Choose the correct answer(s).

- a. Direct people to safety via the shortest and quickest route.
- b. Consider the time of arrival of the tsunami.
- c. Consider the number of people at risk.
- d. Consider the accessibility by car and motorcycle.
- e. Consider the number of refugees that can be accommodated in the evacuation area.

Preparation to develop an evacuation plan covers :

Choose the correct answer(s)

- a. Form a planning team.
- b. Identify sources.
- c. Data and information needs.
- d. Determine the work plan and time.
- e. Create an emergency response plan.
- f. Prepare the required resources.
- g. Identify the size and complexity of the community

Preparation to develop an evacuation plan covers :

Choose the correct answer(s)

- a. Form a planning team.
- b. Identify sources.
- c. Data and information needs.
- d. Determine the work plan and time.
- e. **Create an emergency response plan.**
- f. Prepare the required resources.
- g. Identify the size and complexity of the community

A simple, easy to read and understood evacuation map must have these information

Choose the correct answer (s)

- a. The inundated areas.
- b. The evacuation place, save area or assembly area.
- c. The number of people to be evacuated.
- d. The route for evacuation
- e. Strategic / critical infrastructures and landmarks

A simple, easy to read and understood evacuation map must have these information

Choose the correct answer (s)

- a. The inundated areas.
- b. The evacuation place or assembly area.
- c. **The number of people to be evacuated.**
- d. The route for evacuation
- e. Strategic / critical infrastructures and landmarks

Tsunami Public Information Board should:

Choose the correct answer (s)

- a. Inform residents and tourists on the tsunami hazard zone, evacuation routes and safe zones.
- b. Provide tsunami risk information as well as education on how to respond if a tsunami occurs.
- c. Be in the most visible way to educate people about tsunami hazard.
- d. Be simple, clear, fast to read, and easy to understand.

Tsunami Public Information Board should:

Choose the correct answer (s)

- a. Inform residents and tourists on the tsunami hazard zone, evacuation routes and safe zones.
- b. Provide tsunami risk information as well as education on how to respond if a tsunami occurs.
- c. Be in the most visible way to educate people about tsunami hazard.
- d. Be simple, clear, fast to read, and easy to understand.

Tsunami Evacuation Signs should

Choose the correct answer (s)

- a. Give directions to the evacuation site.
- b. Indicate the evacuation location.
- c. Indicate the distance to the evacuation site.
- d. Contact information or where to look for additional information.
- e. Indication of where the reader is.

Tsunami Evacuation Signs should

Choose the correct answer (s)

- a. Give directions to the evacuation site.
- b. Indicate the evacuation location.
- c. Indicate the distance to the evacuation site.
- d. Contact information or where to look for additional information.
- e. Indication of where the reader is.

Public tsunami education and awareness materials should include.

Choose the correct answer(s)

- a. Tsunami evacuation map.
- b. Tsunami Information.
- c. Tsunami early warning information (natural and official).
- d. Steps and actions to response to a tsunami warning
- e. Tsunami safety guide (Before, during and after tsunami)

Public tsunami education and awareness materials should include.

Choose the correct answer(s)

- a. Tsunami evacuation map.
- b. Tsunami Information.
- c. Tsunami early warning information (natural and official).
- d. Steps and actions to response to a tsunami warning
- e. Tsunami safety guide (Before, during and after tsunami)

The tsunami education and awareness materials should always be printed and distributed physically.

- a. Correct
- b. Incorrect

The tsunami education and awareness materials should always be printed and distributed physically.

- a. Correct
- b. **Incorrect**

To complete the Prep-3 indicator, the following must be available.

Choose the correct answer

- a. At least 1 type of educational material and 3 modes of dissemination.
- b. At least 3 types of educational materials and 1 mode of dissemination.
- c. At least 3 types of material with different modes of deployment

To complete the Prep-3 indicator, the following must be available.

Choose the correct answer

- a. At least 1 type of educational material and 3 modes of dissemination.
- b. At least 3 types of educational materials and 1 mode of dissemination.
- c. At least 3 types of material with different modes of deployment

Outreach and education activity must educate.

Choose the correct answer(s)

- a. People in the community.
- b. Students.
- c. Daily worker coming to the community.
- d. Visitors / tourists.
- e. People with special needs

Outreach and education activity must educate.

Choose the correct answer(s)

- a. People in the community.
- b. Students.
- c. Daily worker coming to the community.
- d. Visitors / tourists.
- e. People with special needs

Tsunami outreach and education activities can be carried out in a multi-hazard contexts as long as there is a tsunami content.

- a. Correct
- b. Incorrect.

Tsunami outreach and education activities can be carried out in a multi-hazard contexts as long as there is a tsunami content.

a. Correct

b. **Incorrect.**

Social Media is not considered as community outreach and education activities since it does not have direct contact with the community

- a. Correct
- b. Incorrect

Social Media is not considered as community outreach and education activities since it does not have direct contact with the community

- a. Correct
- b. **Incorrect**

In the IOC-UNESCO Tsunami Ready indicator, outreach public and activities education must be carried out by the community:

Choose the correct answer(s)

- a. At least 3 activities in a year.
- b. At least in one activity in 3 years.
- c. At least 3 activities throughout the recognition period.

In the IOC-UNESCO Tsunami Ready indicator, outreach public and activities education must be carried out by the community:

Choose the correct answer(s)

- a. At least 3 activities in a year.
- b. At least in one activity in 3 years.
- c. At least 3 activities throughout the recognition period.

Tsunami drills are very important for:

1. Testing the early warning systems and links
2. Testing the evacuation plan.
3. Ensuring SOPs run effectively and are "on purpose"
4. Ensuring that the public understands what action to take when receiving a warning.
5. Find gaps, weak points, or things that could be improved.

Choose the right answer(s)

- a. 1, 2, 4,
- b. 1, 2, 3, 4
- c. 1, 2, 3, 4, 5

Tsunami drills are very important for:

1. Testing the early warning systems and links
2. Testing the evacuation plan.
3. Ensuring SOPs run effectively and are "on purpose"
4. Ensuring that the public understands what action to take when receiving a warning.
5. Find gaps, weak points, or things that could be improved.

Choose the right answer(s)

- a. 1, 2, 4,
- b. 1, 2, 3, 4
- c. 1, 2, 3, 4, 5

To plan an exercise, it is important to identify:

Choose the correct answer(s)

- a. The need for exercise.
- b. Tsunami early warning and emergency response information.
- c. Available resources (expertise, funds, facilities, etc.).
- d. The aims, objectives, and scope of the exercise.
- e. The type of exercise to be use.

To plan an exercise, it is important to identify:

Choose the correct answer(s)

- a. The need for exercise.
- b. Tsunami early warning and emergency response information.
- c. Available resources (expertise, funds, facilities, etc.).
- d. The aims, objectives, and scope of the exercise.
- e. The type of exercise to be use.
