IOTIC Term of Reference (2022)

IOTIC Term of Reference (2022)

Work with the Tsunami Service Providers (TSPs), the National Tsunami Warning Centres (NTWCs), and the National Disaster Management Offices (NDMOs) in the Indian Ocean Region to promote and sensitize information on tsunami early warning system and the understanding of the warning process and products.

Supports Indian Ocean member states at national and community level to strengthen awareness and preparedness for an effective emergency response to a tsunami early warning system through i.e. UNESCO IOC Tsunami Ready.

Capacity building and develop education, awareness, and preparedness materials for an effective tsunami early warning and Mitigation System.

Manage post-event performance surveys and compilation of reports in close collaboration with the ICG/IOTWS Secretariat under the overall direction of the ICG/IOTWS Steering Group, assisted by teams of experts nominated by the ICG/IOTWS Steering Group as required.

Coordinate activities, exchange materials and information with other Tsunami Information Centres (TICs) from other ocean basins.

- Strengthening the Indian Ocean (national and regional) tsunami disaster risk reduction and emergency response capacity for an effective tsunami early warning system,
- Supporting preparedness against tsunamis of at-risk communities, especially through Member States' implementation of UNESCO-IOC Tsunami Ready Recognition Programme (TRRP).
- Providing resources in tsunami risk reduction, educational, awareness, and preparedness for the Indian Ocean region.
